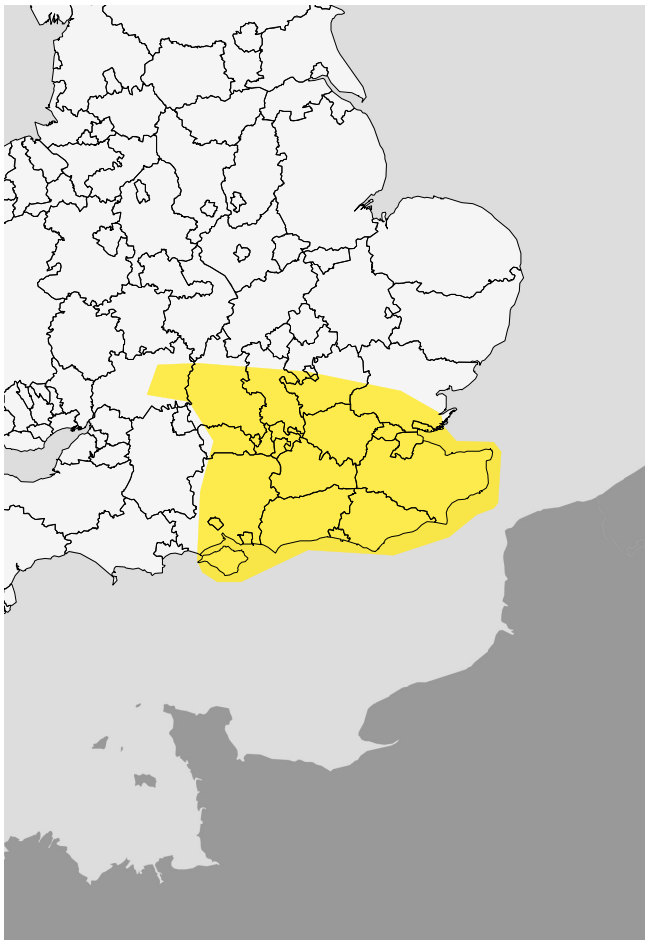
Yellow warning
Thunderstorm

Between
05:00 Tue 14 Nov 2023 and
15:00 Tue 14 Nov 2023



Heavy rain with some thunder and possible gusty winds may cause some disruption in a few places.

What to expect

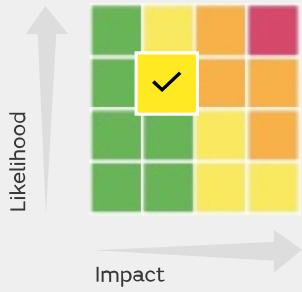
- Possibly some damage to a few buildings and structures from lightning strikes or strong and gusty winds
- There is a good chance driving conditions will be affected by spray, standing water and/or hail, leading to longer journey times by car and bus
- Delays to train services and journeys by plane are possible
- Some short term loss of power and other services is possible

Further details

An area of heavy rain and showers will move eastwards, clearing the east of the warning area by mid afternoon. Sudden, torrential downpours will bring 15-20 mm of rain in a short period of time, with lightning and hail possible in a few places. Isolated gusts of wind to 40-50 mph are also possible.

Reason for update

The warning area has been adjusted to focus on southern and southeast England, with the end time delayed until mid afternoon.



Medium likelihood of low impacts
